- Spot Setting Tool - No.1 (For punching holes to attach Round Head Spot <3mm>)
- Spot Setting Tool - No.2 (For punching holes to attach Round Head Spot <4.5mm>)
- Spot Setting Tool - No.3 (For punching holes to attach Express Spot <9.5mm>)
- Plier (For bending spots prongs)
- Mallet (For hammering hole punch)
- Rubber Board (Underlay for hole punch)

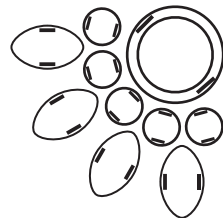

How to use

Enable tracing locations for setting spots (where to punch holes) in sequence of the below design.
You can make arrangement for setting studs by tracing the patterns on a wallet, a bag, and so on.
Use them as patterns by pasting on thick paper such as card board.
